

Bluff Lake Nature Center's

featuring
**a wild beer tasting for adults
 and a wild adventure for kids**

**Saturday, September 25th, 2010
 4:00 to 7:00 p.m. at Bluff Lake**

- You are invited to **Urban Spaces, Wild Places** as it lands at the wildest place of all - Bluff Lake!
- A fundraising event benefitting **Bluff Lake Nature Center** and directly supporting urban vitality, habitat preservation, and environmental education.
- For the adults in the crowd, BLNC will provide three varieties of beer, scrumptious food, and well shaded spaces for our version of a **wild beer tasting**. The party will start at the top of the bluff and there will be wild surprises for those who venture out to the pavilion and the boardwalk.
- While the adults are busy, the kids will take off on their own **wild adventure** — a guided tour around Bluff Lake with three educational stations. Their tour will end at our bluff-top fire pit for a campfire meal.
